ABRIDGED PROSPECTUS OF THE
BRITISH INDIA ICE COMPANY, LIMITED.

Capital Rs. 2,00,000 in 2,000 Shares of Rs. 100 each, of which Rs. 1,50,000 only will at present be called up.

THE object of this Company is to undertake the manufacture of Ice in Calcutta and its suburbs at a cheapness of cost not yet experienced, and to promote the like undertaking in other cities and districts of India. The ordinary Ether machines, in combination with a *special cooling apparatus* for the condensing water, *which is the essence* of this project, are to be the means for arriving at the object, and for securing an effect which would place Calcutta in as favourable a position for ice making as any town of much higher latitude with a temperature 10 degrees cooler.

Ether machines have been now for many years known to be thoroughly reliable, and extremely cheap producers of ice in European countries, but their good qualities are very much prejudiced in India by climatic influences, principally excessive heat. Many will remember the inconvenience caused by the short supply of ice in the hot weather of 1881, which was noticed by the *Englishman* of 2nd May, thus :—"The cause of the present breakdown is said to be the high temperature of water available for condensing purposes" and again on the 5th idem the *Englishman* said :—"The difficulty as we have already said, has been the high temperature of water available for condensing purposes, owing to which a much longer time has been required for the manufacturing of ice."

It is proposed then to use the water cooling apparatus invented and patented by Mr. George Dubern of Calcutta, to be seen at work any day at his residence, by which water can be reduced from 125° Fah. to 85° Fah. in a simple, rapid, economical and unfailing manner; and the apparatus has the additional advantage of working at its best, and giving the coolest water just at the time of year when all existing machines experience their greatest difficulty. By the use of this apparatus it is calculated that one-third less water is required for a machine, than by one without it. By its use the same water with trifling loss can be made to serve over and over again, so that it is peculiarly adapted for up-country stations where a plentious reservoir is not always obtainable. Mr. Dubern is an Engineer thoroughly conversant both practically and mathematically with ice-making apparatus ; and, besides securing the sole use of his invention for Calcutta and suburbs on moderate terms, the Company will have the advantage of his services as Factory Manager. The apparatus has been examined by Mr. James Kimber, Mem. Inst., C.E., and Engineer to the Corporation, and reported on most favorably by him.

Very careful detailed estimates have been made, which show, that for a sale of 14 tons of ice per day for 10 months in the year at 2 pice per seer, the nett profit would be nearly 35 per cent. The estimates have been examined by Mr. Kimber.

The factory is to be laid out for five 6-ton machines, but it is only proposed now to procure three 6-ton machines, from Messrs. H. J. West & Co. Under the circumstances now existing in Calcutta these three 6-ton machines would only turn out 11 tons per day, but by the use of Mr. Dubern's apparatus this will be increased easily to 14 tons. Although it is intended to adopt other machines by Messrs. H. J. West & Co., in the first instance, there are other good machines by good makers, such as the Sulphurus acid machines by Raoul Pictet, &c., which it will be competent for the Company to employ, and thus induce a healthy competition to supply the best producer.

An advantageous site has been secured for the factory, and it is intended to have the factory in working order by the end of March, 1883, and to make the calls as follows :—

THE SINGER MANUFACTURING COMPANY.

SINGER'S GENUINE LOCK-STITCH SEWING-MACHINES are every day becoming more popular than ever, as the following undisputable facts prove their superiority over all others.

It is an acknowledged fact that Singer's Sewing-machines are victorious in every contest. More than 200 medals and cups of trophies are awarded to them for the superior excellence of their work. Latest victory over all competitors at the Sunderland Exhibition, March, 1882.

It is an admitted fact that the Singer stands pre-eminent in point of Mechanical constructions. Thousands are now imitating Singer's, and when they are not sold by merits, they are sold by elegant finish and outward show, which prove in the end to be mere eyesores.

It is a noted fact that Singer's Sewing-machines are in use since the last half century and the unprecedented sale is owing to their universal satisfaction they have given.

It is a well known fact that Singer's Sewing-machines embody all latest improvements unequalled by all manufacturers who try to imitate Singer's and walk in their steps.

It is a complimentary fact that we have so many imitators. The conclusion is irresistible, that if a principle of construction be selected by a horde of imitators as the best to copy a genuine article by the original Company must be the best to purchase.

It is an unquestionable fact that the Singer's Sewing-machines have won a Sewing Match over 30 competitors including the best houses in the trade. Sole Grand Diploma of Honour received for being first in contest and for the perfection of their manufacture and the strength and the beauty of their stitch.

It is an apparent fact that the 'Singer' has no equal, they are made of the best material, workmanship and finish, and are the most durable and the cheapest machine in existence.

It is a plain fact that on account of our increasing demand all throughout the world, and the success which we have achieved in India, it has led many to competition, but the name of the Singer Company is a sufficient guarantee and we fear no competition whatsoever.

NEW ADV

COMMERCIAL INTELLIGENCE

TUESDAY EVENING, Nov. 14.

THE interval which has elapsed since the setting in of the Dewali has by no means been observed as a hard and fast holiday. As usual, there has been a considerable trade done in Piece-goods, not perhaps up to the usual average for Dewali contracts, but still sufficient to show that the market is fairly active where prices have met buyers' views. In Cotton, too, buyers have operated pretty freely, something like 5,000 bales being credited to European firms.

The home advices in the interval have been the reverse of encouraging. In our leading staple, Cotton, there is just a shade more firmness to-day, owing to the Liverpool market yesterday closing firmer with 14,000 bales sales; but produce otherwise rules considerably under our cost prices here.

EXCHANGE.—Bar Silver in London has receded to 51 5-16d. per oz., and in sympathy with this decline sterling rates opened weak at last Thursday's closing figures. During the day a decline of 1-32d. was established, and we now close with every symptom of a further fall at the following figures for ready bills:—

Bank Bills on demand	1s. 7 23-32d.	per rupee.
Do. Telegraphic	1s. 7 21-32d.	,,
Do. 3 months' sight	1s. 7d.	,,
Credits, 3 ,,	1s. 7 31-32d.	,,
France, 3 ,,	2s. 10¼d.	,,

On Calcutta the rate for demand drafts is still ¼ per cent. premium, 60 days' sight 7-16 per cent. discount.

GOVERNMENT PAPER has shown a distinct downward tendency, and Fours have receded to par, Fours-and-a-half to Rs. 107.

SHARES, as a general rule, are quiet. Bank of Bombays meet a fair inquiry at our quotations. Spinning and Weaving Mills are all Rs. 5 lower. Press Companies dull and tending easier, with the one exception of Fort Press, in which an advance of Rs. 25 is quoted. Bombay-Burmah Trading Co. are Rs. 10 lower at Rs. 2,790.

The Bank of Bombay return for the week shows the following changes:—

Public Deposits at Head Office	Inc.	Rs.	14,94,152
Public Deposits at Branches	Dec.	,,	2,78,725
Other Deposits	Dec.	,,	37,41,365
Govt. and other authorized Securities	Inc.	,,	9,66,333
Loans	Inc.	,,	21,110
Bills Discounted	Inc.	,,	3,49,367
Cash with Correspondents	Dec.	,,	5,085
Cash and Currency Notes	Dec.	,,	38,48,692

These movements lack a good deal of their usual significance when the holidays are taken into account, as large withdrawals always take place under the circumstances to cover possible requirements in the interval; but it is satisfactory to observe that the tendency is towards a better demand for money, and it may be that we shall see an improvement in this respect now that the native holidays are pretty well at an end.

COTTON to-day has been firm so far as sellers are concerned, and prices are nominally Re. 1 to Rs. 2 per candy higher. Although a large business has been done during the holidays, however, there has been nothing or next to nothing done to-day, as buyers decline to go on at the rise. For new crop we call the current rates:—

Good	Hingunghaut,	Dec., Rs.	218	per candy.
,,	Bengal,	do.	148	,,
,,	Omra	do.	190	,,
,,	Broach,	March,	215	,,
,,	Dhollera.	April,	184	,,

SEEDS and WHEAT are practically unaltered in value.

FREIGHTS are fairly steady. The s. s. Phædra has been fixed for Marseilles at 22s. 6d., and business has been done for Liverpool by regular liners, forward at 30s. to 32s. 6d. from February up to April.

PIECE-GOODS are a trifle more active than they were, a fair extent of buying having taken place on the strength of the Dewali. There is still, however, an absence of anything like great activity, and certainly no indication of prices improving in leading staples.

COALS are firm for near cargoes at very full rates,

DEFECTIVE OR FAILING SIGHT.

THE sense of sight is so valuable that the importance of perfect and carefully adjusted spectacles can scarcely be overrated; although the wearing of single eye-glasses should be strictly avoided, we have the highest medical authority, confirmed by daily experience, that imperfect glasses, together with the haphazard plan of selection generally employed, are frequent causes of irremediable injury to the sight; and as no present economy can compensate for such a loss, it behoves all to be cautious how they are tempted to use the common pebble or glass spectacles now so generally sold.

For the guidance of those who are using pebble spectacles, it may be stated that when the pebbles are cut *against* the grain, and not polished on the principle which has been universally declared the most appropriate, based on scientific research, they are injurious to the sight.

Unadvisable as the unnecessary wearing of spectacles undoubtedly is, the common notion that their use should be postponed to the utmost is proved beyond dispute to be a grave mistake.

Being in possession of all the optical instruments taken over by us from Dr. A. Menist, we are not only in a position to suit the eye sight to perfection, but to supply different accommodations for each eye which so frequently are needed.

The Bombay Gazette

WEDNESDAY, NOVEMBER 15, 1882.

AT the very time when, as we recently mentioned, the Secretary of State has called upon the Government of India to report upon the Established Church in this country, and its *raison d'être*, a singularly naive attempt is being made to create a little State Church in British Burmah, quite irrespective of Lord Harrington and modern lights upon such subjects. The secret was kept pretty closely for the past twelvemonth, while the plan was maturing, but the cat has been let out of the bag at a meeting in Rangoon presided over by the Chief Commissioner himself, and attended not only by the "Lord" Bishop of Rangoon, but by all the ecclesiastical magnates of that not particularly Christian province. The occasion was the first annual meeting of the Additional Clergy Society, the object of which institution appears to be the establishment throughout Burmah, wherever two or three Europeans are gathered together, of a chaplain to "supervise" their morals, which are alleged to stand in some need of improvement. As this supervision, however arduous, would not provide full employment for the time and energies of the chaplains that are to be, it is proposed that they should fill up their leisure by converting the "natives around," as the Chief Commissioner frankly expressed it, thus making their own "lives more useful and more *cheerful*" (!) There would be no objection whatever, of course, to this double duty being undertaken by the Additional Clergy Society if the cost were to be defrayed by those specially interested in it. But the intention is that the State shall contribute one-half the cost of this new system of propagandism, and shall besides "be induced to assist in building churches and parsonages at outstations." The Chief Commissioner, Mr. Bernard, from whom one might have expected more official caution, gave a sort of half-promise that the Government would do something towards this latter object during the next few years. In truth, nothing could well be less official, or more unctuous and goody-goody than Mr. Bernard's utterances. "Going about the Province," he said, "to outstations where no missionary was stationed"—and at some of which, according to another speaker, the total Christian population numbered *one*—"he often saw how wretched our fellow-countrymen were without aids to right living, such as a resident clergyman and regular Sunday services give to Christian men and women. He believed that the presence of a good clergyman, working for his Master, and setting an example to young Europeans and Eurasians at outstations, would act as a valuable antiseptic and as a preventive of evil." This allusion to young Eurasians will probably be resented by the Chief Commissioner's "wretched fellow-countrymen" at outstations as intrusive and impertinent. But that is their affair. We are concerned only with the public aspect of the proposal to draw from the general taxpayer one-half the cost of the "antiseptic" which, in Mr. Bernard's view, will alone meet their case.

The significance of the presence of the Chief Commissioner himself in the chair on the occasion was fully appreciated by the Bishop of Rangoon, and was duly pointed out by him to mankind in general. "I venture to think," said his Lordship, that "a representative of Her Most Gracious Majesty never more truly fulfils the duties of a statesman than when, on an occasion such as the present, he gives the sanction of his support to the cause of religion." The speaker was proposing a resolution making the Chief Commissioner of British Burmah the patron of the Society and all Commissioners ex-officio vice-presidents. As he was thus establishing the closest connection between Church and State which the condition of British Burmah permitted, the Bishop felt it incumbent on him to show by deep philosophical considerations that the principles of political economy did not forbid the endowment of a religious minority out of the funds of a non-believing majority, but rather the contrary. "The religious faculties cannot be ignored," he remarked sententiously. "Whether we like it or not, they play an important part in the well-being of a State. If we look around us in the world, we find that the most advanced and intellectual nations of the present day are precisely those nations whose laws, philosophy, poetry, nay, whose very fiction, are saturated with the teaching of the Gospel. What is the inference from this? It is both politic and in strict accordance with the severest principles of political economy for a Government to countenance that which tends to induce sobriety, to deepen loyalty, and to develop morality amongst the people. This is the far-seeing policy which justifies Government in providing chaplains for its officers in India and Burmah." It is not at first sight easy to understand how the people can be made sober and loyal and moral by providing clergymen for the officers of Government, but the Bishop tells us how the thing can be done. The objection often taken to the action of Government in supplying chaplains, and in making supplementary grants for the support of chaplains, out of "taxes paid by people who are not of our way of thinking" has not, he considers, "a leg to stand on." For why? "Government is bound to do what it can to make its officials as efficient as possible. I would say a high moral and religious tone tends to promote integrity in the administration of justice *and in the collection of revenue!*" That is to say, if the officers of Government be corrupt judges and dishonest tax-collectors, the people will be disloyal and in their despair may take to drink and immorality. And officials will naturally go to the bad if the State do not pay for their spiritual supervision. We are not caricaturing the Right Rev. Bishop. Here are his very words:—"Officials in outstations, removed as they are from the restraints of society, specially require spiritual supervision, and as they are on public duty, spiritual aid, as much as medical aid, ought to be supplied." The fact that in some of the stations the number of the "supervised" will probably equal that of the supervisors is not blinked by Bishop Titcomb, who discreetly ignores the little Eurasians, and maintains a politic silence as to the chaplains filling up spare time by proselytising the heathen, but he thinks that every European ought to be supervised, regardless of cost:—"If it be objected that large sums are spent for spiritual aid for small numbers of officials, it must be remembered that though their numbers are small, their influence for good or for evil is very great. We cannot count influence by heads, each European at an outstation is as a light set on a hill." And for the greater effulgence of each light "large sums" of Government money may be spent, of course for the profit of the heathen population privileged to gaze upon it. Thus the said heathen will grow in sobriety, in loyalty, and in morality. Q. E. D.

The propagandism which undoubtedly forms part of the plan of operations of the incipient State Church of British Burmah was, as we have said, prudently kept in the background by Bishop Titcomb. This example of reticence was not followed by the Chief Commissioner, and the Rev. Dr. Marks scorned concealment of any kind. Ridiculing the lukewarmness of men like a certain chaplain bound for Burmah, who asked what reduction would be made in the return fare if he came back soon, Dr. Marks urged that clergymen should be selected "who, like our Bishop, feel that the care of the souls alike of natives and Europeans devolves upon the men who would learn one or two of the languages of the country, and make known therein

THE SETTLEMENT OF EGYPT.

(FROM OUR OWN CORRESPONDENT.)

LONDON, Nov 14.

Mr. Gladstone stated this afternoon in the House of Commons that a convention is being prepared for England's occupation of Egypt by twelve thousand men. He instanced the precedent of France after Waterloo. Sir Stafford Northcote criticised the precedent.

THE VICEROY ON TOUR.

(FROM OUR OWN CORRESPONDENT.)

JHELUM, Nov. 14.

After three days at Jalalpore the Viceroy moved his camp to Mariula yesterday, and left this morning for Tangrote, where the party had some excellent fishing. On Saturday and Monday His Excellency stalked oorial. Colonel Black and Captain Harbord, aide-de-camp, shot one each. His Excellency and the remainder of his suite were unsuccessful, as oorial were scarce. On Sunday afternoon His Excellency visited the Jalalpore school.

LAHORE, Nov. 14.

The official programme of the ceremonies to be observed at Rupar during the Viceroy's visit states that His Excellency will be received on the station platform by Colonel Home, Joint Secretary to the Punjab Government, Irrigation Department, the General commanding the Sirhind Division, the Commissioner of the Umballa Division, and other civil and military authorities. The ruling Chiefs will also attend, and will be presented by Sir Charles Aitchison in the course of the day.

On the 23rd the Viceroy visits the canal works and receives visits from the chiefs of Puttiala, Jhind, Nabha, Nalagar, and Maler Kotla, and returns them in the evening.

Great military pomp is to be observed on the 24th, when the Viceroy opens the canal. The Viceroy, Sir Charles Aitchison, and all the Chiefs are to be saluted by the artillery on taking their seats, and a Viceregal salute will be fired when the canal sluices are opened.

Rupar is used to ceremonial gatherings of this character. Mr. Metcalfe met the ruling Punjab Chief in 1808, and Lord William Bentinck met Runjit Sing in 1836, almost on the same spot. The programme says the Viceroy leaves Rupar by special train for Calcutta. Official etiquette probably precludes allusion to Lucknow.

THE COMMANDER-IN-CHIEF'S TOUR.

(FROM OUR OWN CORRESPONDENT.)

GULISTAN, Nov. 14.

General Hardinge and Staff reached Quetta on the 7th November. His Excellency, accompanied by the Military Secretary and Lieutenant Jennings, Assistant Agent Governor-General, visited Gulistan on the 12th, Gwaja pass on the 13th, Kojak pass on the 14th. He proceeds to Hackalzai on the 15th and Kushdil on the 16th, returning to Quetta on the 19th. His Excellency there meets Sir Donald Stewart; and leaves for India *vid* Harnai on the 24th, after which date his movements are uncertain.

MR. E. C. K. OLIVANT, Municipal Commissioner, has joined the committee appointed to arrange for a dinner to the naval officers in connection with Saturday's entertainment. Gentlemen desiring to be present are requested to send in their names to Captain Tennent, the Honorary Secretary, as soon as possible.

SIR ROBERT SANDEMAN returns to India by the mail-steamer expected here on Thursday evening, and will resume his appointment of Agent to the Governor-General in Beluchistan. It appears there was never any foundation for the rumour that Sir R. Sandeman was to be transferred on his return from Quetta to the Commissionership of Rawal Pindi. Mr. R. J. Bruce, 1st Assistant Agent to the Governor-General in Beluchistan, arrived in Bombay on Monday to meet his chief.

WE are informed, on the best authority, that the statement we published yesterday from the letter of a Jacobabad correspondent of a Kurrachee paper—that serious troubles were anticipated in Kuch on account of quarrels amongst the tribes—is a piece of pure imagination. The tribes, in fact, were never more peacefully inclined than at present. Besides, just now would be a very inauspicious time for an outbreak, when the harvest—a splendid one this year, we believe—is standing in the fields just ready for reaping. And there is the deterring influence of the fact that the two Commanders-in-Chief (of India and of Bombay) are both at present in the district. Even the Murris and Bugtis would have more respect for authority than to attempt a disturbance while Sir Donald Stewart and General Hardinge are in the neighbourhood.

IF Sir Lepel Griffin proceeds to Europe on leave next spring, Colonel Bannerman, from Gwalior, will act for him during his absence.

A SEVERE shock of earthquake was felt at Meerut on Friday night at 10-20 p. m. A correspondent says:—The shock was accompanied with rumbling noise. Many people thought a magazine had exploded; the direction of the shock was from north-east to south-west.

THE form in which the Lahore Municipal address was presented to the Viceroy was a happy variation on the conventional scroll and casket. The local paper says:—"the address was made in the form of a book of twelve pages; on the first half of which the English translation of the address was printed, while on the second half—beginning as is usual in Persian books, from what we call the end—the Urdu version was written: the signatures in English and Persian of the members of the Municipal meeting in the middle. The letter-press of the English portion was plainly and neatly printed in black. Each page was bordered with an illuminated frame-work in colour and gold. These illuminations are in the Indo-Persian manner; and while excessively delicate and minute in tracery of foliage, flowers, and geometrical ornament, they are rich in effect. They were executed by six students of the Mayo School of Art, and vary on each page. The cover was a handy but substantial portfolio, made of highly polished teak mounted with studs and framework of perforated brass of Mahomedan design, decorated with raised foliage in gilded *yesso* work, and lined with black-silk velvet. This was also the work of the Mayo School. The Municipality, or whoever hit on the idea, achieved a very happy thought, which will doubtless be imitated elsewhere, so far as it can be; and the design was carried out by the art students of the Mayo School with great taste and skill. It goes without saying, in this part of India, that such invention and such execution can generally be traced to the accomplished Principal of the Mayo School of Art."

IN connection with the sudden despatch of troops from Bangalore to Salem on the occasion of the recent riots, the question has arisen whether, under circumstances in which the military are required to aid the civil authorities, the officer commanding the division has not the authority to demand the railway accommodation necessary for the conveyance of troops even at inconvenience to the public. A Madras paper learns that both Mr. Saunders, the Agent of the Madras Railway, and Mr. Betts, the Agent of the South Indian Railway, have expressed a decided opinion that in emergencies of the kind in question the public convenience should be sacrificed, if necessary. They, however, think that the class of officer who can enforce such concessions should be fixed, and his authority duly limited. The matter has been referred to His Excellency the Commander-in-Chief and the Government, with a view to a decision being arrived at upon these points.

THE lightship on the Krishna Shoal, familiarly known to nautical men as the Krishna lightship, is so badly in need of repair, that it has been decided to have her towed up to Calcutta for thorough overhaul. Arrangements for her relief and for her towage to Calcutta are therefore being made by the Deputy Director of Marine.

MR. ABDUL HAK has not yet succeeded, apparently, in the mission on which he was sent home by the Hyderabad Government in the early part of the year. The London correspondent of an up-country paper says:—Some weeks ago I mentioned that terms of agreement had been made between the Government of the Nizam of Hyderabad and certain influential people in this country for an extension of the railway which already exists in the Nizam's dominions. At the last moment the arrangement has fallen through, but the negotiations have not been finally broken off, and it is possible that, after further correspondence between the Nizam's Government and the India Office, the scheme may again be taken up and completed.

WRITING by the mail of the 20th October, a London correspondent says:—The Patna and Baraitch project, now called the Bengal and North-Western Railway, will be brought out at the beginning of next month. The £1 shares in the Rohilkhund and Kumaon line have already reached a premium of more than 5s. Possibly they may advance up to another 5s., but the present price of money is greatly to the disadvantage of this and other projects.

THE Rangoon papers state that Prince Jewan Bukht has asked the Government for permission to go to Tavoy, for the benefit of his health; and he also asks for Rs. 3,000 to pay the expenses of the journey. The Prince is the son of the last Emperor of Delhi, and ordinarily resides, under surveillance, at Rangoon.

WHILE the transport City of Lincoln, just arrived from Egypt, lay at Spithead on Oct. 18, eight of sixteen prisoners, who had been home in her, and had been put in irons for safety, broke loose, and after disabling the sentry, forced an entrance into the spirit store. There they drank a large quantity of wines and spirits, and became so intoxicated that a scene of the wildest confusion prevailed, and great difficulty was experienced in taking them back to the cells. When there, the medical officer had to remain with them, as they were utterly incapable and senseless. The stomach-pump had to be applied in the worst cases, and with good effect, but Private John Pearce, 2nd Derbyshire Regiment, was so weakened by the operation that, in spite of the most vigilant care, he gradually sank and died next morning. Pearce had been sent home under a sentence of five years' penal servitude for being drunk while on sentry duty in Egypt. Great ingenuity must have been exercised by the prisoners in getting out of their irons, as, when the lights were extinguished, they all seemed perfectly secure. The men who recovered were removed to the Portsmouth Military Prison, and will be further dealt with.

THE opium abolitionists at home are renewing their activity. A conference was to be held, a few days after the departure of the last mail, in London, on the invitation of the Earl of Shaftesbury and Sir Joseph Pease, M. P. Mr. S. Morley, M. P., Alderman McArthur, M. P., Mr. Richard, M. P., Dr. B. W. Richardson, and other leading opponents of the opium traffic, were to take part in it. The London correspondent writes:—"The suggestion in the correspondence recently published as to the opium trade between India and China being terminated within a given number of years, is understood to have met with a very general acceptance among the gentlemen just named. The official correspondence does not disclose that any definite settlement is likely upon the lines referred to, but the idea has certainly been ventilated between the English representative and the Chinese Government."

NEWS of the Danish Arctic Expedition has been received at Copenhagen up to the 22nd September. The expedition was then icebound near Mistni Island; but it was confidently hoped that the vessel would get free, and in any case there appeared then to be no danger.

THE Secretary of State for War is reported to be desirous that steps should be taken to improve the transport organisation, so as to prevent a repetition of the difficulties which arose in Egypt and had the effect of considerably delaying the advance of Sir Garnet Wolseley's force from its base at Ismailia. A Committee is now sitting at the War Office, under the presidency of Commissary-General F. E. Watt, C. B., to report on the present system and suggest improvements.

THE Persian Embassy in Vienna received a telegram on October 18, stating that the traffic between Teheran and the Turkish port of Trebizonde, on the Black Sea, is interrupted. The Persian caravans travelling between those places have been attacked and robbed by the followers of Obeidullah. This news is considered the more important as it appears to justify the suspicion felt in Persia that the Kurdish rising is being assisted by Russian agents, in order to force the trade of Persia to leave the existing routes, and compel it to pass in future through Tiflis and Poti.

A *Standard* telegram from Constantinople, October 16, reports that, "according to advices received there from Erzeroum, the Russians have now 90 field guns distributed along the Persian frontier in the immediate neighbourhood of Araboukh. The total number of their troops does not exceed 16,000 men. At Sari Camieh and at Kars the Russians have three divisions which are not up to their full strength, and six field batteries, each composed of eight guns. The remainder of the troops belonging to these divisions are stationed at Kagniziman, Charigues, Oltis, Ardaham, and Akhalsik. The Persians at the present time have 12,000 regular troops in the neighbourhood of Raour. The Turkish forces in the vicinity of Van already number fourteen battalions of infantry, seven field batteries, two mountain batteries, and two regiments of cavalry."

THE body of Miss Fanny Parnell passed through New York on October 17. A telegram to a London paper says that notwithstanding bad weather thousands of people thronged the streets for miles along the line of route.

A REMARKABLE affray, resulting in the deaths of three persons, is reported from Knoxville, America. On October 18, General James Mabry and Major Thomas O'Connor quarrelled. The latter was informed that Mabry had threatened to kill him. The next day the men met, whether by design or accident is not stated. O'Connor, who carried a gun, shot Mabry dead. Thereupon Mabry's son fired his revolver at O'Connor, who was killed on the spot; but the gun of the latter simultaneously discharged and also killed young Mabry. Both officers showed much gallantry on the side of the Confederates during the war, and they were known throughout Virginia and Tennessee.

IT is satisfactory, the *Pall Mall Gazette* remarks, to find a bishop with moral courage enough to speak faithfully about the Salvation Army. "The Bishop of Peterborough has more than once shown his distrust of unsober enthusiasm and his dislike of religious cant; and we are not surprised that the extravagances, we may say the brutalities, of the Salvationists have been too much for him. He did not believe, he said, that slang, irreverence, and profanity verging upon blasphemy were necessary to win the hearts of the people of England, even of the most degraded and estranged. There was no doubt, the Bishop admitted, that sensationalism would draw a crowd at first; but it was equally certain that it carried with it the seeds of its own decay and failure. A novelty could not always be a novelty; and if sensationalism was persevered in, the time must come when the new sensation would become the old form, and when it would cease to attract as much as the old thing which it replaced. All that is thoroughly true, and so it is that it was not by slang and blasphemy that the first Christians gained a hold upon the world. They drew the vilest of the heathen; they converted the prize-fighters of their day, the gladiators, and the most abandoned; and they converted them not by irreverence or profanity—they converted them by preaching the Gospel in language simple and pure. That is the only sort of conversion that is worth anything in the long run."

DR. BIDIE sends the following communication to *Nature*, on the subject of the destructive powers of white-ants:—"A lady residing in Madras had a set of plain table glass-ware, in a cupboard, which had not been opened for some time. On looking into it one day, she found the glass more or less covered with the mud indicative of the presence of white-ants. The articles were at once removed and washed; but wherever the mud had been applied by the insects, it was found that the glass had a frosted appearance, which no amount of scrubbing would remove. Some of the articles were then sent to me for inspection, and I found that the lustrous surface of the glass had been completely destroyed, as if by some powerful corrosive, wherever the ant-mud had been in contact with it. We know well enough the substances used for etching on glass, but I shall feel obliged if any of your correspondents will explain how these insects managed to act on it in the destructive manner specified."

AN interesting experiment, to test the powers of endurance of the officers of the Cavalry Brigade of the Russian Imperial Guard quartered in Warsaw, was recently performed. Eleven officers took part in the ride. General Stroukoff, commanding the Cavalry, was one of the eleven, and the other ten were chosen by lot from amongst numerous volunteers. The distance ridden was two hundred versts (one hundred and thirty-three English miles), and was performed by all the officers competing in exactly eleven hours, of which twenty minutes only were occupied in rest and refreshment. The ride was round the Mokatoff plain, adjoining Warsaw. None of the officers appeared much fatigued, nor were the horses much distressed The weather was rather favourable, a cold raw wind, but neither frost, snow, dust, nor mud. Each officer provided as many horses as he chose; usually five or six were employed. The pace was at discretion, but was usually a hand gallop. All were weighed previous to starting, and on their return were found to have lost weight, with the exception of General Stroukoff, averaging about four pounds each, five pounds being the maximum of weight lost. The start was made at 6.30 a.m., and the distance was covered by 5.30 p.m.

MILITARY NEWS.

IT has been decided that the appointments of Commandant and Adjutant to His Excellency the Viceroy's Body Guard are in future to be limited to five years; and these officers, on appointment, will be seconded in their corps. The five-years' rule, however, is not to apply, in the case of the Commandant, to officers who, before the expiry of the period, attain the substantive rank of major. Brevet Major Jackson, it may be noted, got the command in June, 1878; so his five years would be up in June next. Lieutenant Onslow was appointed Adjutant, *vice* the late Lieutenant D'Arcy Thullier, in June, 1881.

LIEUT.-COLONEL COOKE, 17th Lancers, stationed at Mhow, will shortly avail himself of leave to Europe.

COLONEL C. M. GRIFFITH, Officiating Cantonment Magistrate at Mhow, is to be transferred to Quetta in charge of the Frontier Transport, and will be succeeded by Major Dalrymple, who at present is Cantonment Magistrate at Neemuch.

MAJOR JEFFREYS, Officiating Brigade-Major at Allahabad, is confirmed in the appointment.

LIEUTENANTS O'BRIEN AND BODRINGTON, Manchester Regiment, have been appointed to the 14th and 23rd Native Infantry as probationers for the Staff Corps.

LIEUTENANT WYNCOLL, 5th Native Infantry, has resigned his probationer's appointment, and reverts to the 1st Connaught Rangers.

VETERINARY-SURGEON BURKE goes to Allahabad to inspect all animals returned from Egypt, eventually joining at Benares.

LIEUTENANT BARRY, Worcestershire Regiment, who has been accepted a probationer for the Indian Staff Corps, comes to Bombay.

SURGEON-MAJOR MACARTHEY is transferred from Lahore to Umballa, and Surgeon-Major Langdon from Kasauli to Lahore for medical charge of Station Hospital.

SURGEON-MAJOR J. L NOTTER, A.M.D., on arrival from England, will do duty in the Meerut Division.

PRESENTATION OF MEDALS BY SIR FREDERICK ROBERTS.

A CORRESPONDENT writes to the *Madras Times* from Calicut:—The ceremony of presenting medals to the detachment of the 2nd Battalion Hampshire Regiment for the late Afghan campaign took place on the 30th October at West Hill, Calicut, where "D" Company 2nd Battalion Hampshire Regiment are stationed, under the command of Major M. C. Seton. The company paraded in review order at 5-45 a.m. His Excellency the Commander-in-Chief, Sir F. S. Roberts, G. C. B., V. C., C. I. E., arriving soon after, was received with the usual salute. The ceremony occupied the time of His Excellency for one hour; he pinned the medal on each recipient's breast, and also addressed a few words to them. On the conclusion of the ceremony, His Excellency addressed the company as follows:—

"Men of the 2nd Hampshire Regiment,—When last I saw you about a year ago at Bangalore, I told you the high opinion I had of you, and how much I regretted that you were prevented from accompanying the force under my command from Kabul to Kandahar. I am very glad to meet you again, and to see you turn out clean and smart as the men of the 2nd Hampshire Regiment always do turn out. It is a great pleasure to me to present you with these medals. I seem to be the proper person to give them, as I am more indebted to you than any one else, and I am quite sure that no corps has a better right to wear them than you have, for no one did better service. Throughout the campaign the 6th behaved as soldiers should always behave; there was little or no crime in the Battalion, the men were always ready and willing for work, and whatever duty had to be performed was done well and in a soldierly manner. I could not give a regiment a higher character. I was very proud to have you with me in Afghanistan, and I am much pleased that you should be still under my command, and I am also glad to see you looking so well, and to hear, from Major Seton, of your good behaviour, and of the absence of crime. By your appearance you all look as if you had no crime here. You will always have my good wishes, and I hope that that you may all long be spared to wear the medals you have received to-day. I shall see you again before long."

THE LATE MR. WHITTEN'S FUNERAL.

THE funeral of the late Mr. William Whitten, an inspector of the Bombay police force, who died at the European General Hospital about 3 o'clock on Monday morning last, took place yesterday afternoon. Mr. Whitten was much respected through out the entire police force, and held in esteem by his superior officers as an honest, upright, steady, painstaking policeman; and the respect entertained for him as a public servant was evidenced by the fact that the funeral party yesterday was larger than has been known for many years past to have followed the remains of any other police officer to the grave. The Commissioner of Police, the Acting Deputy Commissioner, and all the European members of the force who could possibly be spared from their duties attended the funeral party, which left the European General Hospital at 4 p. m. The service was impressively performed at the cemetery by the minister of the Camatteepoora Church. It may be some consolation to Mr. Whitten's friends at home to learn that, from the time of his admission into the hospital to his death, everything that medical skill and proper attendance could do was done for him; and that the Deputy Commissioner of Police made personal inquiries at the hospital from time to time regarding the state of his health.

PORTUGUESE CONSUL IN BOMBAY.—Senhor Francisco de Minezes Meyreiles de Canto e Castro, who had lately occupied the post of Director-General of the Custom House at Goa, has been appointed first-class Consul of Portugal in Bombay.

THEFT.—Pandoorung Muddun was yesterday convicted by Mr. Dosabhoy Framjee of stealing sundry gold ornaments, of the collective value of Rs. 415, the property of Narayen Jugernath. He was sentenced to six months' rigorous imprisonment.

BRUTAL ASSAULT.—Saul Daniel, a Jew, was yesterday convicted by Mr. Dosabhoy Framjee of assaulting Mariam, woman, on the night of the 12th instant, by kicking her in the stomach. He was sentenced to one month's rigorous imprisonment.

REFRACTORY SEAMAN.—James Malone, a seaman of the steamship Hartlepool, was yesterday convicted by Mr. W. Webb of continued wilful disobedience in refusing to do duty on board his ship. He was sentenced to six weeks' rigorous imprisonment.

CHARGE OF BIGAMY.—At the Fort Police Court, the case in which Alfred Benjamin Duggan and Catherine Rebecca Summers were charged before Mr. Webb by Thomas Goulden, a foreman moulder, with bigamy, was called on yesterday for hearing, and was dismissed for want of appearance of the complainant.

MURDEROUS ASSAULT.—Yesterday at the Fort Police Court, before Mr. W. Webb, Baloo Crishna was brought up on remand and charged with having attempted to murder Ragee, woman, on the 9th October last, by striking her on the head with a knife. Mr. H. Cleveland, Public Prosecutor, appeared for the prosecution. The magistrate, after recording the evidence of witnesses for the prosecution, committed the prisoner for trial at the ensuing criminal sessions of the High Court.

A BARRACK STORE-ROOM BROKEN INTO.—It was reported that the canteen cash-box of H. M.'s East Yorkshire Regiment was stolen from the store-room during the night of the 11th instant. The canteen was broken into, the pane of glass and frame of the door being found burst open. The missing cash-box is a deal wood box with two hasps, and one Chubb lock, about 2 feet by 15 inches, and contained about Rs. 215. About 3 o'clock on the morning of the 12th the police, when taking their rounds near Lall Bagh, observed two soldiers, carrying a box, and suspecting that all was not right, they challenged the soldiers, who dropped the box and bolted. Lieutenant Steele, the Adjutant of the E. Y. Regiment, reported the matter to the Cantonment Police, who are now instituting the necessary inquiries. It appears, however, that on the night of the 11th instant there was only one man out on pass, and the soldiers who were carrying the box cannot be identified by the police. The box, which was not broken open, is now in the custody of the Cantonment Police.—*Poona Observer.*

DIVINE SERVICES.

YOUNG MEN'S CHRISTIAN ASSOCIATION.

There will be service on board the s. s. Clan Ranald in the Prince's Dock at half-past seven o'clock this (Wednesday) evening. Captains, officers, and seamen are cordially invited to attend.

The Bethel Flag will be hoisted in the afternoon.

The Rev. G. H. Wharton, from America, will give an address to young men especially at their weekly meeting in their rooms, Apollo-bunder, on Friday next, the 17th instant, at 8-30 p. m. (Bombay time.) All young men are cordially invited to attend.

THE ALLEGED WIFE MURDER.

THE adjourned inquest into the circumstances connected with the death of Cassee, woman, who, on the morning of Sunday, the 5th instant, was found lying dead in a sweeper's gully at Patton-street, was resumed yesterday by the Coroner, at his bungalow, Clare-road, Byculla.

Govind Raghoo deposed.—I am a labourer. The deceased was the wife of my brother Suntoo. I lived with them in Second Patton-street. On Saturday, the 4th instant, I and Suntoo returned home from our work about 9 p.m. and went upstairs. Suntoo asked his mother where the deceased was. She said, "She may be sitting in the passage near the *chickey*-wallee's." Suntoo went there and found the deceased. Suntoo asked her why she was sitting there. I did not hear her give any reply. I then heard a blow struck, and saw Suntoo seize the deceased by the hands and pull her; and as she was endeavouring to rise, he pushed her violently with both hands and threw her on her side, and her face struck the floor. Suntoo then dragged her into his room. Deceased was then dead. Suntoo never drinks.

Rukmee deposed.—I am the wife of one Narayen, a dealer in *chickey*, which he hawks about. We lived in the same chawl in which the deceased lived, and in the next room. On Saturday, the 4th instant, a little before 8 p. m., I was cooking in my room, and the deceased was sitting outside leaning against the wall. She came there half an hour previously. She told me that her mother-in-law would not allow her to do the cooking. Soon afterwards her husband, Suntoo, came there, and asked why she was sitting there, while his mother was cooking. Deceased did not reply. Suntoo gave her a violent slap on the side of her head and knocked it against the wall. He then seized her by both hands and pulled her, and as she was trying to rise he shoved her from the back and knocked her violently on the floor. As she fell she exclaimed, "Oh, mother!" Suntoo then dragged her into his room.

Cassiram Ramjee, a labourer living in the same chawl as the deceased and her husband Suntoo, was next examined. He corroborated the statement of the last witness.

Hunro Alo, the Municipal sweeper who found the dead body of the deceased lying in the sweeper's gully at Patton-street on the morning in question, and gave information to policeman No. 307 C regarding the matter, was next examined.

Dr. Sidney Smith deposed.—I am Surgeon to the Coroner. On the 5th inst., at 4 p.m., I made an autopsy of the body. There were no external marks of violence on the body. I found both lungs adherent to the walls of the chest. The liver was abnormally large. I found considerable effusion of blood under the scalp on the left side behind the temple. There was also effusion on the inside corresponding with the spot where the effusion was outside. There was no fracture of the skull. The spleen was normal. From the *post-mortem* appearances, I am of opinion that the cause of death was concussion of the brain, with effusion. Such concussion and effusion could be caused by a violent blow on the head. The skull and brain were healthy before this injury occurred. The tables of the skull were not thinner than is natural.

The jury upon the above evidence found that the death of the deceased was caused by concussion of the brain, with effusion, the result of a blow on the head inflicted on her by Suntoo with his open hand, under such circumstances that the act of Suntoo was culpable homicide not amounting to murder.

CHARGE OF FORGERY.

At the Fort Police Court, yesterday, Mr. C. E. Palmer, Examiner of Marine Accounts, Calcutta, appeared before Mr. Webb, with his solicitor, Mr. Little (Messrs. Cleveland, Little, and Nicholson), and laid an information against Rahimbhoy Khanbhoy to the following effect:—On the 28th October last Rahimbhoy Khanbhoy, of the firm of Vullebhoy Khanbhoy and Co., contractors, presented to the Accountant, Government Steam Yard, at Bombay, an order for Rs. 3,698 and odd purporting to be signed by Mr. Palmer, and obtained payment of the amount. The signature, "C. E. Palmer," attached to the document was a forgery; and the defendant was accordingly charged, under section 471 of the I. P. Code, with using as genuine a document which he knew to be forged. The complainant prayed for a warrant to issue against the defendant.

His Worship granted the application.

Later in the day Mr. Budroodeen, instructed by Messrs. Payne and Gilbert, surrendered his client, Rahimbhoy, to the warrant, and applied for bail.

The magistrate ordered the defendant to furnish bail in his own recognizance in the sum of Rs. 7,000 and two sureties for Rs. 3,500 each.

The case was then postponed till the 22nd instant.

THE SCINDE AND PUNJAB COTTON PRESS COMPANY.

THE eleventh annual ordinary general meeting of shareholders was held yesterday at the company's registered office, Church-lane, Mr. C. M. Setna presiding. The business of pressing during the season was very satisfactory, the total number of bales pressed by all the presses amounting to 61,748 bales against 34,060 pressed last year. Out of the profits the directors recommended a dividend of Rs. 150 per share, Rs. 3,000 being carried to the reserve fund account to meet contingencies. The audited accounts and balance sheet, together with the directors' report for the year ending 31st August, 1882, were adopted and confirmed. A dividend of Rs. 150 per share was declared, Rs. 3,000 were carried to the reserve fund account, and a balance of Rs. 595-9-5 was carried to next year's account. Mr. C. M. Setna, who retired by rotation, was re-elected a director; and the appointment of Mr. Goculdas Narronjee and Mr. Vundravundas Purshotumdas as directors was confirmed. Mr. Ghelabhoy Haridas was appointed auditor of the company for the ensuing year at a remuneration of Rs. 125. The proceedings ended with a vote of thanks to the chairman.

THE NATIVE PRESS.

THE BOMBAY ASSOCIATION.

The *Bombay Samachar* understands that Messrs. Budroodeen Tyabjee, P. M. Mehta, and K. T. Telang have undertaken to resuscitate the defunct Bombay Association. The native paper thinks that it is a pity that these three learned gentlemen should waste their energies over a lifeless body like the old Bombay Association, which, considering the long period of existence it enjoyed, did not do much political work.

A LIBERAL GIFT.

The *Jám-i-Jamshed* states that Mr. H. A. Hormarjee, of Messrs. B. and A. Hormarjee, has contributed a sum of Rs. 1,000 towards the repairs of the wells of the Towers of Silence at Randere, near Surat, in the name of his father, the late Mr. Ardaseer Hormarjee. The *Jam* adds that such assistance is much required in the poor villages, where the inhabitants are not rich enough to undertake such works themselves.

THE MAHOMEDANS AND THE SALVATIONISTS.

At a recent meeting of the Mahomedans, under the presidency of Agha Shaboodin Shia, the Viceroy, an address to Sir Frank Souter was unanimously passed, thanking him for the impartiality and foresight he had used in the matter of the Salvationist movement. Had the necessary steps not been taken to put a stop to these unworthy actions of the Mukti Fauj, the Mussulmans would have taken offence and unseemly rows would have been the inevitable consequence. The Police Commissioner certainly deserves much praise for the discretion he used in stopping the singing and the processions, which are insulting to the true faith.—*Kossid-i-Moombai.*

BENGAL.

A RACE-HORSE.—The horse of the year in India, so far,—though his absolute title to the distinction has still to be proved—is a very fine animal named Jack, now in training in Calcutta, imported by Mr. Wilson, the Circus proprietor. Notwithstanding, however, that he brings with him a great reputation from Australia, and that "a good horse never can be a bad colour," not a few sporting authorities refuse to believe in a race-horse of such an almost unheard of colour as dun.—*Pioneer.*

THE LIEUTENANT-GOVERNOR ON TOUR.—Telegram from Gya, 13th November states:—The Lieutenant-Governor and party reached Gya on Thursday by special train from Bankipur. His Honour was presented, on the platform of the railway station, with an address of welcome by the Rajahs, zemindars, and other residents of the town. Mr. Rivers Thompson replied in a suitable speech, and then drove off to the house of Mr. Kemble, the Magistrate, where he remained during his visit. The road from the station was decorated with triumphant arches, and thronged with natives, and the Rajah of Deo and Baboo Rameshab Pershad of Muksudpur, accompanied by numerous retainers, rode on horse back by the side of His Honour's carriage. In the afternoon His Honour inspected the Cutcherry and other public buildings. On Friday morning he visited the Buddhist Temple and Monastery at Budhgya, and during the day received visits from the Rajahs and zemindars of the district. In the evening His Honour drove round the city and visited the Buddhist Temple, where the priests presented a Sanskrit address. The streets and houses were brilliantly illuminated, and, in spite of the large crowds, everything went off quietly and in order. This morning His Honour returned by special train to Bankipur. A message from Fyzabad, 11th Nov., says:—An address of welcome was to-day presented to the Lieutenant-Governor at the railway station by the Municipality, dwelling upon the boon of local self-government and the reconstitution of municipal committees.

MADRAS.

INSPECTION OF RAILWAYS.—A new system of inspection of railways is to be introduced, and Colonel F. S. Stanton, R. E., the Director General of Railways, is to inaugurate the same. In this connection he will visit the Madras, the South Indian and the Mysore State Railways in a fortnight.—*Madras Times.*

THE NILGIRI RAILWAY.—We learn that the indenture between Government and the Nilgiri Railway Company has been signed, and the contract finally concluded for the construction of this line; Colonel Shaw-Stewart, the Consulting Engineer, signing on behalf of the Secretary of State for India, and Mr. Stanes, of the firm of Stanes and Co., representing the Nilgiri Railway Company.—*Madras Times.*

STEAM TRAMWAYS IN MADURA.—The Local Fund Boards in Madura have informed Mr. Clements Leggatt that they are of opinion that the construction of a tramway there, as he proposes, will not pay as a railway feeder except perhaps between Paighaut and Pulney, and possibly another from Tirupur to Dharampuram, or Dharampuram to Pulney, where the cotton traffic would be benefitted.—*Madras Times.*

N.-W. PROVINCES, PUNJAB, AND OUDH.

THE SIMLA HOSPITAL.—The site on which "Ripon Hospital" is to be erected has been purchased by the Government for Rs. 30,000. A committee has been appointed to assist the Municipality in all matters connected with the new hospital. The members are—Mr. Hume, C. B., Dr. Townsend, Mr. Elston, Mr. Walker, Mr. Ram Narain, with Dr. Franklin, Civil Surgeon as Secretary.—*Simla Argus.*

A BIG PUMPKIN.—The Maharajah of Kashmir has sent a monster pumpkin to Lahore for the information of the Governor-General. It measures six feet and seven inches, is three feet in diameter, and weighs one maund and a half. After this, the largest gooseberry of the English silly season will be nowhere.—*Pioneer.*

P. W. ENGINEERS.—The following Assistant Engineers, from Cooper's Hill College, are posted to the Irrigation Branch, Punjab:—To the 2nd Grade—Mr. R. Woollcombe, Mr. G. H. LeMaistre, Mr. J. K. E. THE FUTURE OF EGYPT.

THE *Times* correspondent at Cairo wrote on Oct. 7:—With the march past of last Monday the war in Egypt may be considered concluded. The military phase of the question disappears; perhaps a more difficult one remains. Whether the whole episode might have been avoided by a different policy, whether our interference was politic or just, these are questions which may be left to the historian; it concerns us more to recognize facts as they are, and only so far to regard the past as may be necessary to understand the present and to indicate our future policy. The events of the last month have proved beyond the shadow of a doubt the fact which no one in Egypt has ever seriously questioned, that Arabi possessed no following whatever in the country. This is not proved so much by Tel-el-Kebir, the result of which would have been the same had the native army been less half-hearted, a result owing to the superiority of our troops, but it is proved by the events that followed. The troops at Kafr Dawar not beaten, they held their ammunition inaccessible in earthworks; it is probable that few but the officers knew of Arabi's defeat, we know that it was not believed in at the intermediate station of Kafr Zayat; and yet these men, on the mere h

THE "BULL DOG'S HEAD" BRAND.
(BASS'S ALE AND GUINNESS'S STOUT.)

READ BROTHERS, of London, request purchasers of their Bottled Ale and Stout to ask for "THE DOG'S HEAD BRAND" because another and totally distinct Bottler uses the figure of a Bull Dog, and thus two bottlings of entirely different character may both be called "READ'S DOG."

The original "Bull Dog" mark is the registered property of READ BROTHERS, and their bottling still often goes by that name, but the title of "DOG'S HEAD BRAND" is theirs exclusively and is the only one that is protected by the injunction of the Lords Justices of England.
